

LORDS & KNIGHTS PRESS PROFILE

LORDS & KNIGHTS is a free-to-play cross-platform strategy building game in a medieval setting. Players assume the role of “lords” who can turn their castle into an imposing bastion and capture enemy strongholds.

In addition to the iPhone, iPad, Android and browser versions that are already available, a Facebook version is also scheduled for release in the coming months. MMOG fans will therefore be able to access their account from any platform and play an active part in the game events at any time.

LORDS & KNIGHTS has achieved massive success since its release in June 2011:

- Ranked no. 1 in the “best selling apps” category in 10 countries
- Top 10 in the “best selling apps” category in 26 countries
- Top 10 in the “best selling apps – simulation” category in 51 countries
- Top 10 in the “best selling apps – strategy” category in 59 countries
- Top 100 in the “best selling games” category in 63 countries
- Over 80% 4 and 5 star ratings in the App store
- More than 2,000,000 downloads worldwide

FEATURES:

- 13 different building types with lovingly rendered upgrade levels
- 8 different unit types in 4 troop categories
- 20 technologies to research
- Lots of exciting missions
- An extensive alliance and trading system
- Thrilling battles between thousands of players in a world
