

Working Student Quality Assurance (m/w/d)

Since the publication of its MMOGs “Lords & Knights”, “Crazy Tribes” and “Celtic Tribes”, XYRALITY has grown to one of the most successful mobile games studios in Europe. More than 60 dedicated employees work on the further development of our game portfolio to this day.

We are currently looking for a working student Quality Assurance (m/w/d).

Your responsibilities:

- Quality control and implementation of technical solutions for the continuous development of our games and technical processes
- Analyzing, reproducing, documenting and evaluating of software defects, parallel to the development and operation of our web application
- Creation of bug reports and maintenance of our bug database
- Independent implementation of our automated functional and integration tests
- Manual testing
- Work closely with the Game Development department

Required skills:

- Ideally, first experience in the implementation of frontend, backend and interface tests for web and mobile applications
- Ideally, experience in manual game testing and in test automation
- Experience in dealing with Mac operating systems and associated software
- A passion for (online) games, especially role-play games
- Quality-conscious and motivated to improve our games using creativity and analytical thinking
- Strong communication skills
- Enjoying working in a team

We offer:

- A challenging and promoting working atmosphere
- Team-oriented working process, visibly incorporating the results of your work
- Unique expertise in the development of cross platform games

If you are interested in this unique opportunity, please send your complete application with salary expectations and your portfolio in a PDF file to jobs@xyrality.com. We would appreciate information, where our job advertisement caught your attention.
