### Tasks:

- Close collaboration with the project lead in planning and implementation
- Development of the respective components and tickets
- Creation of a performant API server as well as an appealing Vue.js-based frontend
- Working with map material and data on the Mapbox SDK and OpenStreetMap data.

### Requirements:

- Professional experience in web application development using Ruby on Rails
- Willingness to work independently, self-motivation and creativity when faced with challenging problems
- Technology Stack: Ruby on Rails 7, JavaScript/ES6, CSS/SASS/SCSS, PostgreSQL, Git, any reactive frontend framework (e.g. Vue.js, React, Angular)
- Desirable: Vue.js, TypeScript, Web Components, Webpack, npm, Jenkins
- Enjoy working in a team!

### We offer:

- A challenging, but also supportive working atmosphere
- Responsible tasks
- A team-oriented work process
- A unique know-how in the development and marketing of cross-platform games
- A modern working environment, in perspective also a hybrid working model
- Subsidies for the Deutschland Ticket
- Visibility of your own work results
- Fun at work
